

REMARKS

Upon entry of this amendment, claims 2, 4-22, 24-27, and 30-35 will remain at issue.

Claims 22 and 27, which the examiner previously indicated were directed to allowable subject matter, have been placed in independent form. All other claims have been made to depend from these two claims.

To address the enablement issue, the terms "radiating devices" and "radiation characteristics" have been replaced with more specific wording.

These changes are believed to put the application in form for allowance, so the applicant requests a notice of allowance of claims 2, 4-22, 24-27, and 30-35.

Respectfully submitted,
